

Profile Summary	Core Competencies
<ul style="list-style-type: none"> <li>A result-oriented professional offering <b>over 10.7 Years</b> of successful career distinguished by commendable performance in <b>UI Development (Angular 16,HTML,CSS,JavaScript,TypeScript)</b>.</li> <li>Suggested solutions for implementation of any client requirement like: <ul style="list-style-type: none"> <li>Building shared component for file upload and download functionality.</li> <li>Building shared validation component to check and validate data before inserting /updating the database.</li> <li>AgGrid implementation for displaying data in tabular format.</li> <li>Implementing out of box functionality in agGrid such as drop down and hierarchical data representation.</li> <li>Graphical representation of data in the form of line chart, bar chart, pie chart.</li> </ul> </li> <li>Received <b>Best Developer Award</b> in developing shared components and functions that reduces the effort and development time.</li> <li>Leveraged skills in transforming complex things to easy &amp; creative that speak to the end user's goals by keeping updated with the latest design trends and cutting edge technologies</li> <li><b>Planned and imparted training</b> to the Development Team and promoted UI design to managers through presentations &amp; UI Artefacts.</li> <li><b>Boosted clients' product, service, visibility and event projected revenues fourfold or more;</b> designed and developed custom websites for mobile and desktop monitors using <b>CSS3/HTML/Type Script/Bootstrap/ Angular Material/Angular Flex Box/Angular 16</b></li> <li>Excellent client relationship management and communication skills with capability to comprehend client and accordingly conceptualize web/ visual designs.</li> <li><b>RxJS Certification from Udemy</b></li> <li><b>NgRx Certification from Udemy.</b></li> </ul>	Requirement Gathering Web Application Design Website Layout & Analytics Team Management

## Organizational Experience

### Since March 2023 to still date with HCL, Bangalore as Technical Lead

#### Projects

##### Key Result Areas:

- Developing defect free code using HTML, CSS, JavaScript, Ignite, ag-grid, Angular 16 for the UI application
- Suggesting solutions for implementation of any client requirement
- Mentoring new team members for smooth implementation of project
- Reviewing application and feature coding and plan future upgrades with the development team
- Understanding clients' requirements; providing design solutions i.e. functional design specification document; leading a team for ensuring effective management of UI

#### Highlights:

- Performed **detailed analysis** of modules such as dashboard and configuration module along with their implementation.
- Conducted **Unit Testing** of applications; identified and resolved the bugs that have made our application more stable.
- Coded, implemented and integrated complex software programs using technologies such as Angular16, JavaScript, Ignite.
- Develop many shared component and functions that are reused throughout our application. It reduces effort and time.
- Integrated REST API for CURD operations.

## **Since Feb 2022 to Feb 2023 with IBM, Bangalore as Senior System Analyst**

### **Projects**

#### **Key Result Areas:**

- Developing defect free code using HTML, CSS, JavaScript, Angular 14 for the UI application
- Suggesting solutions for implementation of any client requirement
- Mentoring new team members for smooth implementation of project
- Providing implementation support and warranty support; proposing new ideas to client for a better business
- Reviewing application and feature coding and plan future upgrades with the development team
- Understanding clients' requirements; providing design solutions i.e. functional design specification document; leading a team for ensuring effective management of UI

#### **Highlights:**

- Performed **detailed design** of modules such as product listing , personal detail and delivery detail module along with their implementation.
- Conducted **Unit Testing** of applications; identified and resolved the bugs that has made our application more stable.
- Coded, implemented and integrated complex software programs using technologies such as Angular13, JavaScript, Bootstrap, Angular Material
- Develop many shared component and functions that are reused throughout our application. It reduces effort and time.
- Integrated REST api for CURD operations.

## **Since Dec 2020 to Jan 2022 with LTI, Bangalore as Specialist - Software Engineering**

### **Projects**

#### **Key Result Areas:**

- Developing defect free code using HTML, CSS, JavaScript, Angular 8 for the UI application
- Suggesting solutions for implementation of any client requirement
- Mentoring new team members for smooth implementation of project
- Providing implementation support and warranty support; proposing new ideas to client for a better business
- Reviewing application and feature coding and plan future upgrades with the development team
- Understanding clients' requirements; providing design solutions i.e. functional design specification document; leading a team for ensuring effective management of UI

#### **Highlights:**

- Performed **detailed design** of modules such as hour-box module, time-line module, tool Tip module along with their implementation.
- Conducted **Unit Testing** of applications; identified and resolved the bugs that has made our application more stable.
- Coded, implemented and integrated complex software programs using technologies such as Angular, JavaScript, Bootstrap.
- Develop many shared component and functions that are reused throughout our application. It reduces effort and time.

## **Since March'2019 to Dec 2020 with TCS, Bhubaneswar as IT Analyst**

### **Projects**

#### **Key Result Areas:**

- Developing defect free code using HTML, CSS, JavaScript, and Angular 6 for the UI application
- Suggesting solutions for implementation of any client requirement
- Mentoring new team members for smooth implementation of project
- Providing implementation support and warranty support; proposing new ideas to client for a better business
- Reviewing application and feature coding and plan future upgrades with the development team
- Understanding clients' requirements; providing design solutions i.e. functional design specification document; leading a team for ensuring effective management of UI

#### **Highlights:**

- Performed **detailed design** of modules such as Authentication module, user module, Engineering module, Enterprise module along with their implementation.
- Conducted **Unit Testing** of applications; identified and resolved the bugs that has made our application more stable.

- Coded, implemented and integrated complex software programs using technologies such as JavaScript, Bootstrap, Angular 4
- Develop many shared component and functions that are reused throughout our application. It reduces effort and time.
- Integrated licensed agGrid functionality and extend its implementation to out of box requirements such as drop down in agGrid and hierarchical data representation

**Since OCT'2014 to Feb'2019 with Infosys Ltd., Bhubaneswar as Technology Analyst**

## Projects

### Key Result Areas:

- Developing defect free code using HTML, CSS, JavaScript, Angular 4 for the UI application
- Suggesting solutions for implementation of any client requirement
- Mentoring new team members for smooth implementation of project
- Providing implementation support and warranty support; proposing new ideas to client for a better business
- Reviewing application and feature coding and plan future upgrades with the development team
- Understanding clients' requirements; providing design solutions i.e. functional design specification document; leading a team for ensuring effective management of UI

### Highlights:

- Performed **detailed design** of modules such as Data Form Module, Validation Module, Graphical Representation Module, Query Builder Module along with their implementation, and documentation; integrated software modules developed by other team members, and performed integration testing; successfully implemented the validation and Angular Fusion Chart functionalities
- Conducted **Unit Testing** of applications; identified and resolved the Data Validation and Dynamically Query Formation bug in Validation and Query Builder module
- Coded, implemented and integrated complex software programs using technologies such as Angular, JavaScript, Bootstrap

## Projects

<b>Title:</b>	<b>UDM Time Clock</b>
Client:	UKG
Period:	March'23 still date
Role:	UI Technical Lead (Technical lead)
Technology:	<b>Angular 16</b> , HTML, CSS, Ignite, ag-grid and REST api Integration
Description:	Migrate UDM UI from AngularJS to Angular 16. UI interface of devices/clocks used to capture employee information such as biometrics (finger and face scan). User can add configuration and establish communication with the actual device. User can view summary status for the device and perform various maintenance. and troubleshooting actions on one or more devices.

<b>Title:</b>	<b>Add line automation Journey</b>
Client:	MTN, South Africa
Period:	Feb'22 still date
Role:	UI Developer (Senior System Analyst)
Technology:	<b>Angular 14</b> , HTML, CSS, Angular Material, REST api Integration and Typescript
Description:	Create an ecommerce website where MTN users can purchase telecommunication devices, subscribe to data plan and can upgrade existing contract.

<b>Title:</b>	<b>Global Overview(GO)</b>
Client:	Viacom CBS, USA
Period:	Jan'21 still date
Role:	UI Developer (Specialist Software Engineer)
Technology:	<b>Angular 8</b> , HTML, CSS, Angular Material and Typescript
Description:	Create a single pane of glass where operator can see status across all channels in a single window. Show hourly alerts in case of any fault in playlist across the channels.

<b>Title:</b>	<b>Test Data Management (TDM)</b>
---------------	-----------------------------------

Client: Leading Electrical Company (EATON), USA  
 Period: OCT'19 still date  
 Role: UI Developer (IT Analyst)  
 Technology: Angular 8, HTML, CSS, Angular Material and Typescript  
 Description: Test Data Management (TDM) System to provide an operator interface, data collection and reporting for their Test Stand equipment.

**Title:** **Tata Steel-Europe**

Client: Europe's leading steel producers, with steelmaking in both UK and Netherlands  
 Period: March'19-Sept'19  
 Role: UI Developer (IT Analyst)  
 Technology: Angular 6, HTML, CSS and ES6 JavaScript  
 Description: Designed the screens in the Tata Steel-Europe e-commerce website according to the wireframe for multiple view-ports from the scratch.

**Title:** **RFL Order Management**

Client: Leading Mobile Company (Apple), USA  
 Period: Aug'18-Feb'19  
 Role: UI Developer (Technology Analyst)  
 Technology: Angular 6, HTML, CSS, Angular Material and Typescript  
 Description: The RFL Management Tool had automated supply and sales data feeds from multiple applications like SAP, Demantra and GBI to excel, followed by integration with Gurobi to projects. This solution helps planners to efficiently manage inventory and improve in-store execution.

**Title:** **Demand Planning Tool**

Client: Leading Mobile Company (Apple), USA  
 Period: Jun'15-Aug'18  
 Role: UI Developer (Technology Analyst)  
 Technology: Angular 4, HTML, CSS, Angular Material and Typescript  
 Description: This is an application used to forecast supply and demand mapping of client accessories. The application is used for delivering required data to customers after processing it. It takes past three quarters data based on four Geo levels (America, Europe, Japan and Asia Pacific) and forecast future demand and supply.

## Technical Skills

<b>Technical Skill</b>	<b>HTML (version 4 and 5), CSS (Version 3), JavaScript (ECMAScript5 and ECMAScript6), Angular Material ,Bootstrap, Angular 13,Angular 6 , Angular 8,Angular 9,Angular 14</b>
<b>Tools:</b>	Visual Studio Code, Visual Studio 2019,Jira,Kibana,Octane,PUTTY,WinScp
<b>Version Control</b>	TFS, GIT, BitBucket, GitLab, GitHub
<b>Operating System</b>	Mac, Windows

## Academic Details

- **B.Tech. (Electrical & Electronics Engineering)** from GIET, Gunupur in 2014 with 8.6 CGPA
- **12<sup>th</sup>** from Kendriya Vidyalaya ARC Charbatia, Cuttack in 2010 with 78%
- **10<sup>th</sup>** from Kendriya Vidyalaya, ARC Charbatia in 2008 with 83%

## Personal Details

Date of Birth: 24<sup>th</sup> May 1992  
 Languages Known: English and Hindi
